

Catalina Foothills School District Special Education Resource Program

The Catalina Foothills School District resource programs are designed to support students with a variety of disabilities in grades K through 12 who require specially designed instruction. We offer individual and small-group instruction in either a general education class or a pullout resource classroom to students who need specially designed instruction, related services, accommodations, and/or modifications so they may access the general education curriculum in accordance with their individualized education plan.

Program Location

Students in the resource program attend their home schools whenever possible.

Classes

Students in the resource program attend class with non-disabled students whenever appropriate.

Services

Students in the resource program receive direct and indirect services according to their individualized needs.

Our Core Values

- We invest in the intellectual and personal achievement of each student, set high expectations, and focus on continuous improvement.
- We create a culture in which each student feels safe, welcome, supported, included, and connected.
- We develop an environment where errors and questions are welcomed as opportunities to learn.
